## D&T Textiles Programme of Study 2024-25

### Our Five-Year Curriculum

The Textiles curriculum at BYJHS aims to be **inspiring, creative, and practical**. Throughout our Textiles curriculum we open our learner's minds to how fabrics and other materials interact with us as consumers and encourage students to question function and form. We also ensure all our students have experience with the main equipment, such as the sewing machine and **we encourage them to explore and broaden their capabilities and levels of personal challenge with practice**. The curriculum is a cross over between design and art-textiles. **Using creativity and imagination, pupils design and make outcomes**. They acquire a broad range of subject knowledge. Pupils learn **how to take risks, becoming resourceful, innovative, enterprising, and capable citizens at work**.

Pupils have the opportunity to learn and explore a wide range of skills and techniques in areas such as printing, fabric painting, batik, machine stitching, hand stitching and 3D material construction.

### TEXTILES CURRICULUM AREA STAFF 24 - 25

Mrs S Babad  
Miss S Stern  
Miss Kaufman
