

BEIS YAAKOV JEWISH HIGH SCHOOL ACADEMY

Health and Social Care Programme of Study 2024-25

Our KS4 Curriculum

The intention of BTEC Health and Social Care is to ensure that each student has the opportunity to understand the wide range of opportunities within the field, preparing students for future employment as well as providing them with the knowledge and skills within Health and Social Care that can then be transferred in to a variety of environments. The Health and Social Care course is a vocational qualification which takes an engaging, practical and inspiring approach to learning and assessment. The course **equips students with a sound, specialist and realistic understanding of how to meet the needs of individuals using services and specialist equipment**, whilst **challenging stereotypes and discrimination**. The study of care values is at the heart of Health and Social Care which develops skills such as **empathy, compassion, commitment, tolerance and empowerment**. This enables our students to become educated citizens and **contributes to society in a positive way**. The curriculum challenges students **to think abstractly, work collaboratively and problem solve** to develop curiosity and the desire for knowledge.

The course is designed so that the units build upon each other as the students grow in confidence. This allows the students to embed their knowledge whilst giving opportunities to put into practice what they learn. This ensures they develop their technical skills, which they can then apply to real-life scenarios through case studies and local community contexts.

HEALTH AND SOCIAL CARE CURRICULUM AREA STAFF 24 - 25

Mrs S Horwich
